## Boarding / Fit Club Drop Off Agreement

Preferred Phone #: \_\_\_\_\_ Emergency#: \_\_\_\_\_

We make every effort possible to prevent your pet from getting sick. We work diligently daily to keep a clean and safe environment for our friends. We recommend that any dog that boards with us or visits us on a regular base should receive a **Bordetella Vaccine every 6 months** to help prevent kennel cough. Much like us getting a flu shot, vaccines are a preventative not a cure. So we will do our utmost to continue to create a healthy environment for your pet.

We strive to maintain a safe environment for your pet, but we cannot fully guarantee that your pet won't play rough with other pets nor that your pet won't feel any stress while staying with us. If your pet develops any medical conditions, we will treat the condition at the owner's expense. If rough play between pets causes injury, the offending dog's owner will be responsible for any expenses in treatment of the resulting injuries. We will attempt to contact you at the above emergency numbers prior to treatment, but if we are unable to reach you, we will still treat the injury or condition. We are not responsible for injuries and illnesses that occur. We will make every attempt to keep your pet safe and healthy while providing the most reasonable quality treatment for them if anything should occur.

While we will do our utmost to keep them with your pet, we are not responsible for articles left with your pet (bedding, toys, leashes, etc). Bedding and toys are washed if they are soiled on, and may be mixed in with other laundry.

For your pet's wellbeing, we request that they be treated with flea preventative prior to staying. If they are not on a preventative we will treat for fleas at owner's expense before we may admit them into our boarding facility. Pets are required to be on a heartworm preventative solely for the intestinal parasite protection. If they are not on a preventative we will treat for parasites at owner's expense before we may admit them into our boarding facility. Pets that are not up to date with their shots, with records to show this, will receive their immunity shots by our veterinarian, at the owner's expense, before we may admit them into our boarding facility. The pet will be required to stay in the clinic at the same price rate as boarding.

If an owner does not bring their own food, or the food supply runs out, we will use our house food to feed the animal for their stay. There is a \$4.00 charge per feeding for our house food.

***LATE FEE: \$15.00 for up to 15 minute after the closing time posted at the front door. After 15 minutes my pet(s) will be boarded overnight at the standard boarding rates, including feeding charges. If I fail to pick up by 8:00am the following day, my pet(s) will incur a Half Day Fit Club Fee for pick up between 8:00am & Noon or a Full Day Fit Club Fee for pick up between Noon and closing.***

By signing below, I agree to the terms and conditions set above for my animal's stay.
